

Success Story

MIGUEL VEGA

SPECIAL POINTS OF INTEREST:

- Miguel was a student with excellent conduct and an active member of various AJCC organizations.
- I would recommend the Program to all my family, friends and to all those that want to succeed in life and want to become someone.
- AJCC helped me to obtain my High School, Vocational preparation in Electricity and to develop work skills.

Miguel Vega is from Vega Alta, Puerto Rico and joined Arecibo Job Corps on July 17, 2007.

He had just completed his eleven grade of High School when his uncle, an ex-student of Job Corps told him about the Program.

We asked Miguel which were his goals before entering AJCC and he answered "My goals were to obtain my High School Diploma and study in an University in order for me to provide for myself.

We asked Miguel how AJCC helped him and he answered "AJCC helped me to obtain my High School, Vocational preparation in Electricity and to develop work skills.

Miguel was a student with excellent conduct and an active member of

various AJCC organizations like Student Government Association, TEAP Committee and Recreations and Sports.

Miguel developed his WBL in Ponce Electrical where he demonstrated his works skills.

We asked Miguel if he will

recommend AJCC to others and he answered "I would recommend the Program to all my family, friends and to all those that want to succeed in life and want to become someone. It is an excellent studies program which offers everything: education, residential living, food, clothes,

transportation, working materials and work opportunities.

To end the interview, we asked Miguel about the CSS and who was his MMM (Model, Mentor, Monitor) here in AJCC to which he said the following: "My Model was Tomas Torres, Behavior Supervisor because he taught me responsibility, my Mentor was, Roberto Santa, Recreation Supervisor, because he gave me good advice and support and my Monitor was Joel Roldán, Vocational Manager, because he was always behind me and attentive to my career.
